Executive Summary

National Grid ESO in its role as EMR Delivery Body is required by the Capacity Market Rules 2014 (Rule 5.10.2) to notify the Secretary of State of the Final Results of the Capacity Market Auction as soon as reasonably practicable following the conclusion of the Capacity Auction. This report discharges that obligation.

The T-3 Capacity Auction for delivery in 2022/23 concluded on **31st January 2020, 12:15 BST**. The results of the auction are as follows, where any capacity figure refers to de-rated capacity, unless otherwise stated.

The CMUs to which a Capacity Agreement has been awarded and the duration of those Capacity Agreements are listed in the CMU results section (page 6).

In addition to the results presented above, National Grid ESO is required under Capacity Market Rule 5.10.3 to report any CMUs that were removed from the IT Auction System under Capacity Market Rule 5.3.3. The Auction concluded without any CMUs being removed from the system by National Grid.

The remainder of this report gives further detail on the Capacity Market Auction Clearing, how the Clearing Price was reached and what makes up the capacity that has been procured.

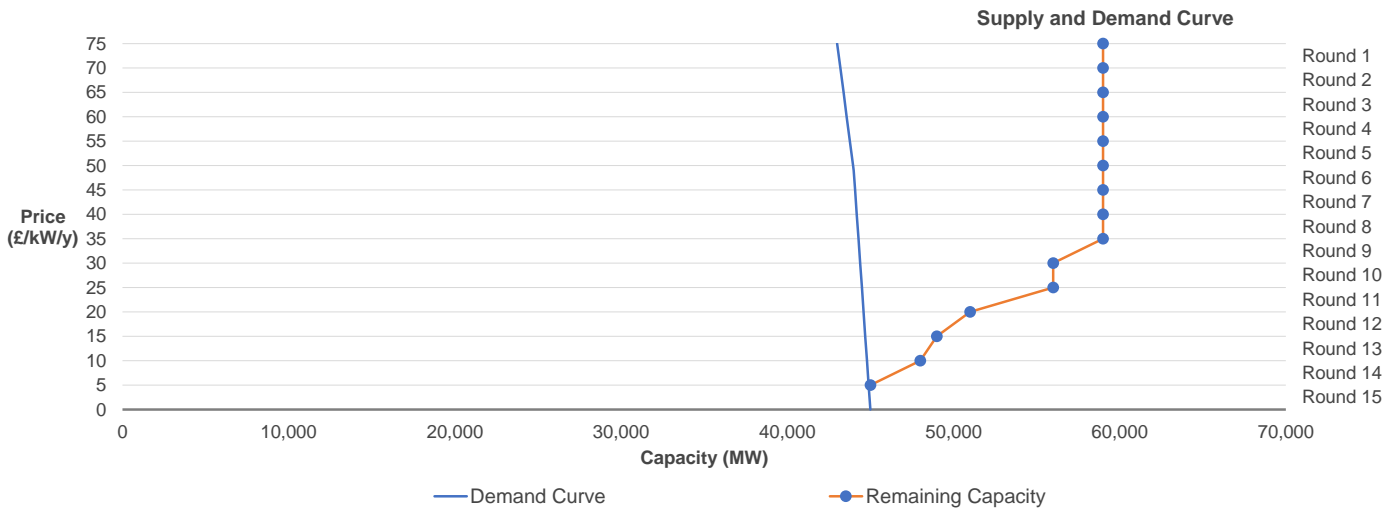

The results of the auction have remained provisional for the period of 8 working days after the completion of the Capacity Market Auction, during which time the Secretary of State may annul the auction on the grounds specified in Regulation 27 of the Electricity Capacity Regulations 2014. This period has now passed and these results are final.

Any T-3 (delivery year 2022/23) data shown within this document originates from the latest Capacity Market Register available at the time this document was published.

The high level auction results are summarised below including a round by round summary graph. As shown within the round summary, the auction cleared in **round 14**.

Auction Results

Auction and Delivery Year	T-3 Auction, Delivery Year 2022/23
Date and time auction cleared	12:15, 31st January 2020
Clearing Price	£6.44
Aggregate Capacity of CMUs awarded Capacity Agreements	45058.832 MW
Target Capacity (demand at clearing price)	44868.571 MW
Capacity entering auction and proportion awarded an agreement	58994.694 MW (76.38% awarded an agreement)
Number of CMUs awarded an agreement	375
Number of applicant companies awarded an agreement	136
Number of parent companies awarded an agreement	112

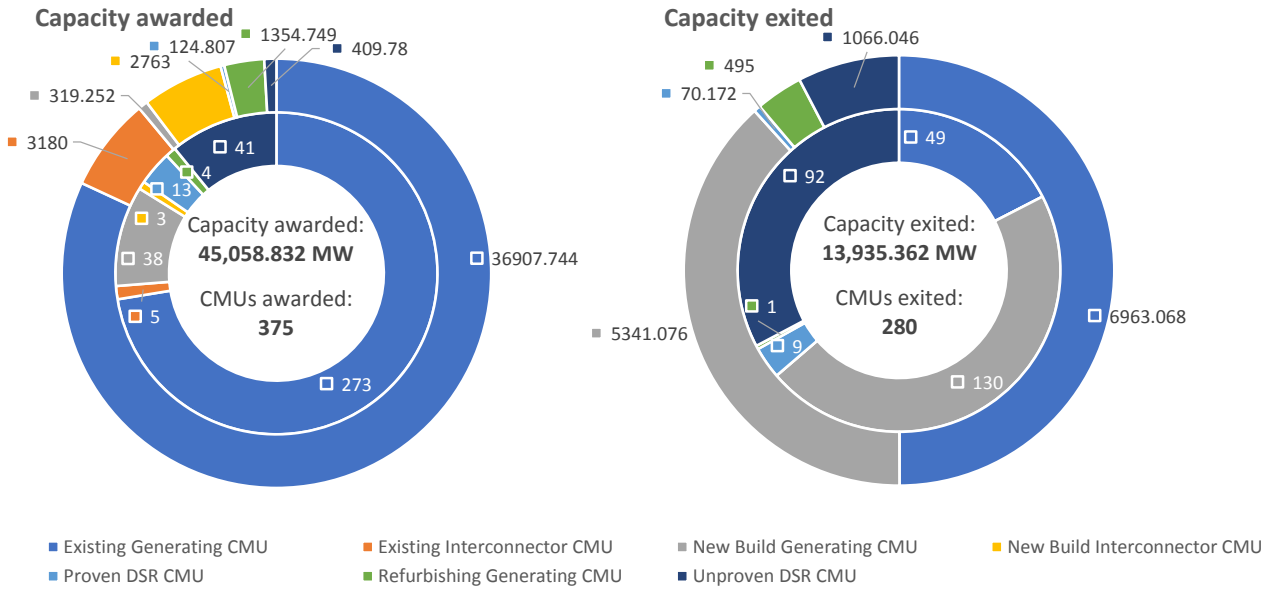

The awarded and exited capacity are summarised below by technology type. Existing CMUs made up 79.75% of the capacity entering the auction and formed both the largest capacity to exit the auction (49.97%) and the largest capacity to be awarded an agreement (81.91%). Of the total 8423.33MW of new build generation (14.28% of capacity entering the auction), 36.59% of this capacity was successful in gaining an agreement.

Awarded and exited capacity by technology type

	Breakdown of awarded capacity			Breakdown of capacity exiting the auction		
	Capacity MW	%	No. CMU	Capacity MW	%	No. CMU

Unproven DSR CMU	409.78	0.91%	41	1066.046	7.65%	92

The below charts show the breakdown by the **generating type** of CMUs that were awarded an agreement and those CMUs who exited the auction above the clearing price.

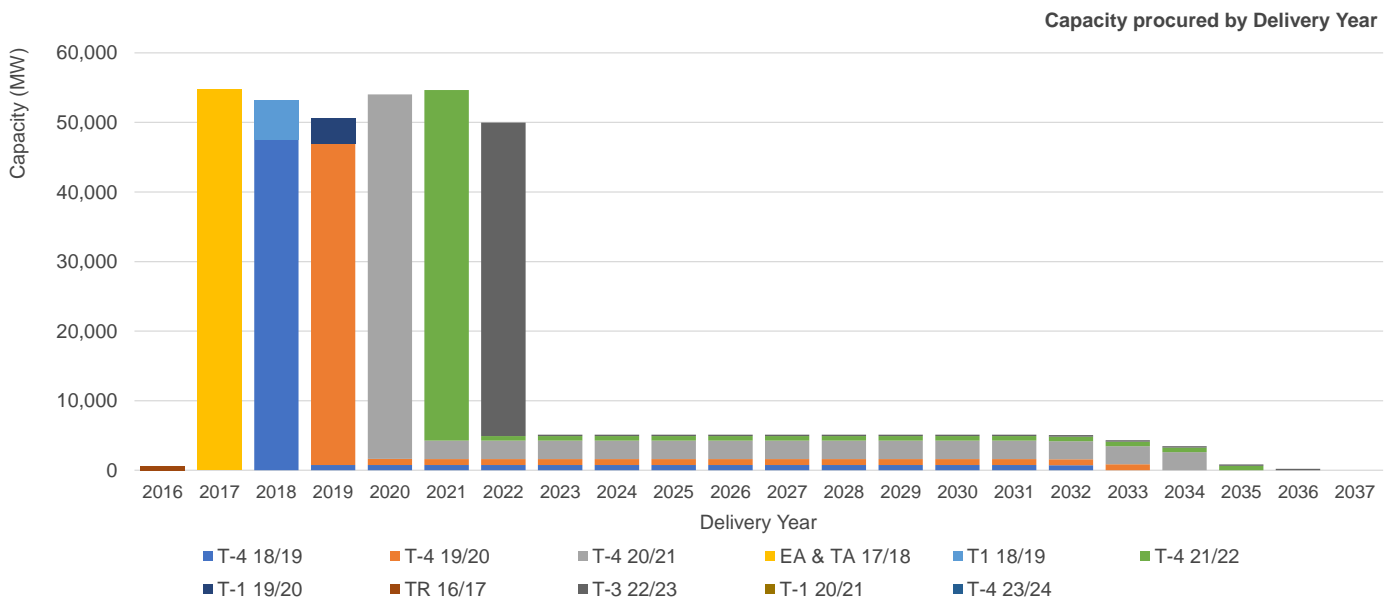

Please note in the above charts, "Refurbishing Generating CMU" includes bidders who may have acquired either a pre-refurbishing agreement or a post-refurbishing agreement.

The below charts show the breakdown by the **primary fuel type** of CMUs that were awarded an agreement and those CMUs who exited the auction above the clearing price.

The maximum duration for Capacity Agreement received in the T-3 Auction is 15 years. The capacity procured for the period of 2016 to 2037 is shown below, by auction.

Capacity procured by Delivery Year
