Executive Summary

National Grid ESO in its role as EMR Delivery Body is required by the Capacity Market Rules 2014 (Rule 5.10.2) to notify the Secretary of State of the Final Results of the Capacity Market Auction as soon as reasonably practicable following the conclusion of the Capacity Auction. This report discharges that obligation.

The T-1 Capacity Auction for delivery in 2019/20 concluded on **12th June 2019, 13:00 BST**. The results of the auction are as follows, where any capacity figure refers to de-rated capacity, unless otherwise stated.

The CMUs to which a Capacity Agreement has been awarded and the duration of those Capacity Agreements are listed in the CMU results section (page 5).

In addition to the results presented above, National Grid ESO is required under Capacity Market Rule 5.10.3 to report any CMUs that were removed from the IT Auction System under Capacity Market Rule 5.3.3. The Auction concluded without any CMUs being removed from the system by National Grid.

The remainder of this report gives further detail on the Capacity Market Auction Clearing, how the Clearing Price was reached and what makes up the capacity that has been procured.

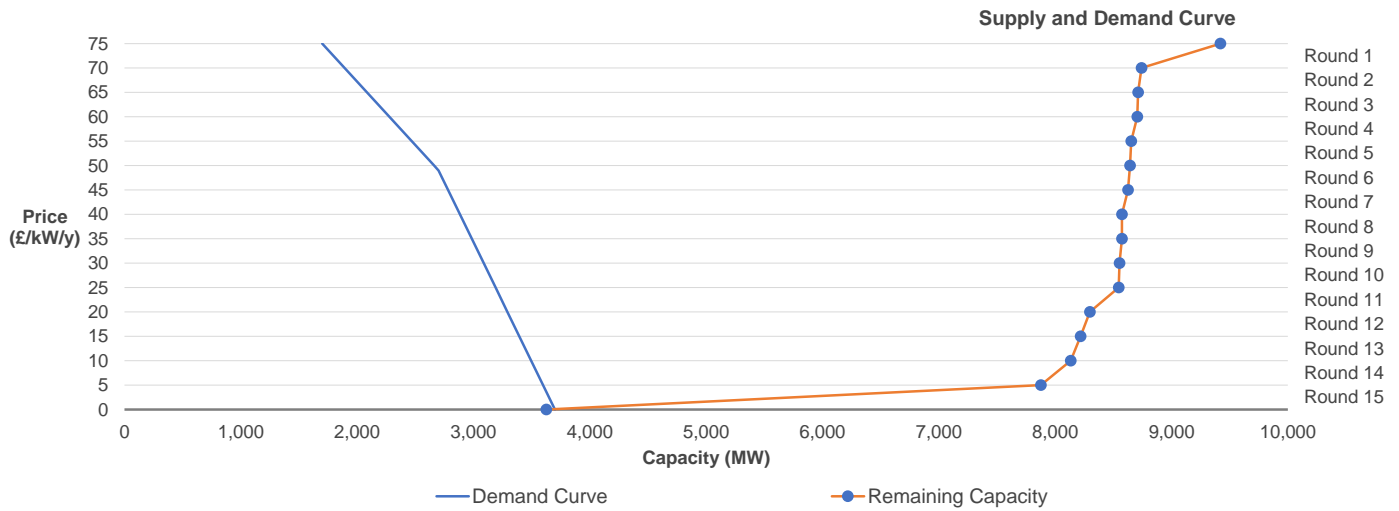

The results of the auction have remained provisional for the period of 8 working days after the completion of the Capacity Market Auction, during which time the Secretary of State may annul the auction on the grounds specified in Regulation 27 of the Electricity Capacity Regulations 2014. This period has now passed and these results are final.

Any T-1 (delivery year 2019/20) data shown within this document originates from the latest Capacity Market Register available at the time this document was published.

The high level auction results are summarised below including a round by round summary graph. As shown within the round summary, the auction cleared in **round 15**.

Auction Results

Auction and Delivery Year	T-1 Auction, Delivery Year 2019/20
Date and time auction cleared	13:00, 12th June 2019
Clearing Price	£0.77
Aggregate Capacity of CMUs awarded Capacity Agreements	3626.196 MW
Target Capacity (demand at clearing price)	3684.286 MW
Capacity entering auction and proportion awarded an agreement	9420.357 MW (38.49% awarded an agreement)
Number of CMUs awarded an agreement	129
Number of applicant companies awarded an agreement	74
Number of parent companies awarded an agreement	58

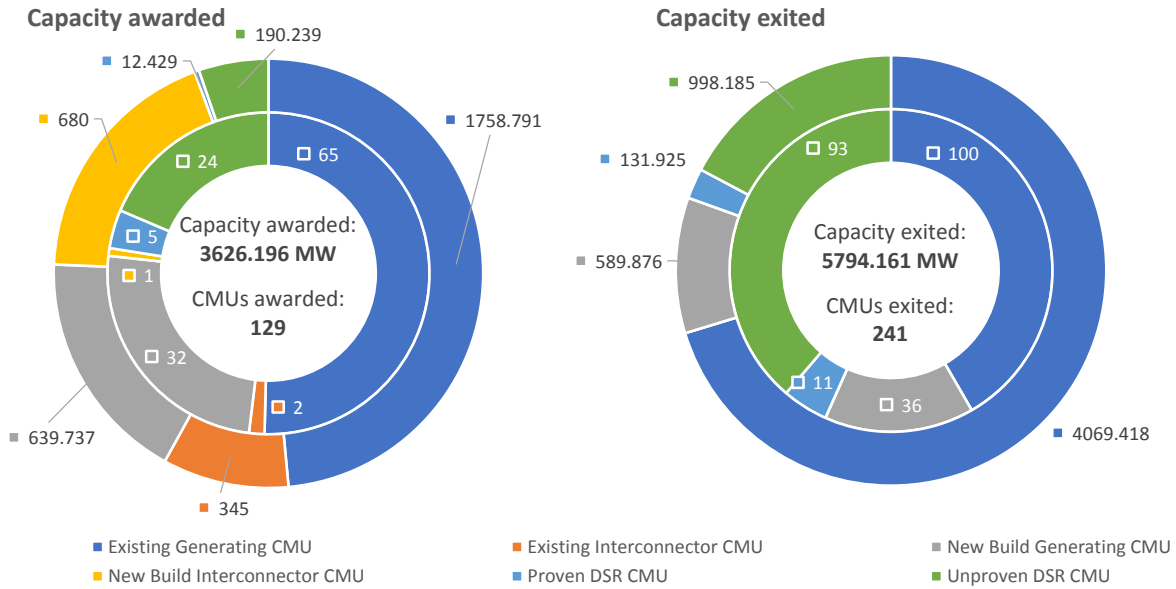

The awarded and exited capacity are summarised below by technology type. Existing CMUs made up 65.53% of the capacity entering the auction and formed both the largest capacity to exit the auction (70.23%) and the largest capacity to be awarded an agreement (48.50%). Of the total 1909.61MW of new build generation (20.27% of capacity entering the auction), 69.11% of this capacity was successful in gaining an agreement.
